The demonstration request contains no amendments. A live submission would recheck eBuy immediately before upload and acknowledge every posted amendment in this volume and in eBuy comments.

2. Eligibility, labor, and representations

Meridian confirms that the five proposed labor categories are on GSA MAS contract 47QDEM021D0042 under SIN 541611. Every offered rate is at or below its applicable awarded ceiling. The native price workbook shows the category, staffing level, hours, offered rate, ceiling, check, and extended price for each performance period.

Meridian has reviewed the fictional request's small-business, SAM, representation, file, page-limit, and signature requirements. The company proposes no open-market items and no deviation from the stated 4.5-FTE labor mix.

3. Organizational conflict of interest statement

Meridian has identified no financial interest, impaired-objectivity role, unequal-access condition, or biased-ground-rules involvement related to this fictional requirement. The quotation uses Meridian's own invented performance records and the common information in the demonstration request. Meridian would notify the Contracting Officer if a live conflict assessment changed before award or during performance.

Subject: Meridian Support Services, Inc. quotation for RFQ 2099D-01

This demonstration package includes administrative, technical, and price files for Recovery Grant Portfolio Operations Support. The technical volume follows the evaluation order, addresses PWS 4.1 through 4.6, maps the named team to the priced labor categories, and identifies the role and period for each performance example. The price workbook preserves formulas, hours, ceiling checks, and linked totals.
